Thank you Jackson Park parents!
We appreciate you!
Welcome!
Please take time to carefully review the following policies and procedures. Many parents ask how they can help their children be more successful in school. Your support is vital and understanding these routines and procedures will help your child achieve academically and socially. If you have any questions about any of our procedures, contact Principal Rebecca O’Connell at 314-290-4451 for clarification.

Daily Schedule
Office Hours 8:00 a.m. 4:30 p.m.
Instructional Time 8:45 a.m. 3:40 p.m.
Teachers provide supervision before school beginning at 8:30 a.m. and after school in front of the building until 3:45 p.m. Because supervision is not available, students cannot be dropped off before 8:30 a.m. or picked up after 3:45 p.m. unless they are enrolled in the Unleashing Potential (UP) Before/Aftercare Program (314-561-3334) or participating in an organized extra-curricular activity. For your child’s safety, please honor our drop-off and pick-up times. To ensure the safety of our children, University City Police will be contacted for any student that has not been picked up from school by 4:30 p.m.

Breakfast and Lunch
Students may eat breakfast beginning at 8:30 a.m. or lunch in the cafeteria or bring his/her lunch from home. The School District of University City is partnering with the U.S. Department of Agriculture to offer a free, nutritious, meal program to all students in the District. All students enrolled in District schools are automatically eligible to participate in the meal program at no charge and with no additional application required. Breakfast and lunch will be served to all students. The meals served follow U.S. Department of Agriculture guidelines for healthy school meals. For details about the new meal program, visit www.ucityschools.org/Food or call the Food Services office at (314) 290-4068. Students may still be charged for additional food purchased.

RevTrak for Online Payments
As a convenience to District parents and students, RevTrak was instituted in 2018 as an option for online, 24/7 payments of student fees and fines. For more details visit www.ucityschools.org/RevTrak.

Attendance
Regular and prompt attendance is one of the most important keys to a student’s academic success in school. The School District of University City complies with state laws regarding excessive student absences. Excessive tardiness or absences may be considered educational neglect or truancy and could result in school disciplinary action, intervention by school social workers or school resource officers, a referral to Children’s Division, and/or a referral to the Juvenile Court System.

When a student has a pattern of tardiness and/or absenteeism, a letter is sent home to the parent. If absences continue to accrue after the first notification, the school social worker will contact the parent and a second letter will be sent. If the student continues to show attendance concerns, the social worker will contact the family to establish a plan for improved attendance. Each step is an effort to support the family and the student to improve attendance, but if attendance continues to be a concern after taking these steps, a referral will be made to the Family Court/Children’s Division for chronic absenteeism.
Verified Absence – Parents should notify the school on the day of or prior to the day for absences due to illness or injury, death in family, health/medical appointment, religious observance, legal situation and/or participation in a valid educational opportunity.

Notification of Absence – For planned absences (e.g. doctor’s appointments, funerals), send a written note with your child at least one day prior to the absence. For unplanned absences (e.g. illnesses or accidents), contact the 24-hour school attendance line at (314) 290-4451 before 9:00 a.m.

Tardies and Early Dismissals – Students who are tardy or who are leaving school early must check-in with the main office so that attendance can be adjusted. Students who are tardy to school or leave early disrupt classroom procedures and learning time. Tardies and early dismissals will be documented. When tardies and early dismissals equal the time of a full school day, the student will be counted as absent for one full day.

Parents requesting early dismissal must send a note. Children are to be picked up from the school office ONLY by a parent or legal guardian unless indicated in SISK12 as an approved contact. Students are NOT to be picked up directly from the classroom. This procedure is followed to protect your child.

**Bus Transportation**

For students eligible for transportation, school buses pick up and drop children off in close proximity to their homes. According to District policy, students in The School District of University City who reside 1.25 miles or more from their neighborhood school are eligible for transportation services to and from school. To find out if your child is eligible for school bus service, please first ask the secretary in the school office. If your child is eligible for transportation and you need to find the location of his or her bus stop and bus number, contact your child's school office or visit the District mobile APP or website at www.ucitieschools.org/BUS. Bus transportation schedules are posted prior to the start of the school year and are updated as routes change. Transportation concerns should first be directed to Transpar at (314) 290-4046. If Transpar is unable to provide resolution, contact Chief Financial Officer Scott Hafertepe at (314) 290-4008.

Safe and respectful behavior on the bus is required of all children. The cooperation of parents is required to assure every child a safe ride to and from school. During the first week of school, we will review behavioral expectations for the bus. Bus expectations are outlined in the District Student Expectations Guide (www.ucitieschools.org/SEG). Inappropriate behavior on the bus may result in the loss of bus riding privileges.

**Emergency Closing**

In the event of emergency closing of schools due to inclement weather or other factors, families will be notified by a District automated call and/or email, District website, Facebook and Twitter postings. School closings are also announced on major television and radio stations. PLEASE DO NOT CALL THE SCHOOL since it ties up the phone lines and makes communication regarding emergencies difficult. Unscheduled closings due to equipment failure or weather conditions may also occur. If school is dismissed early, make sure your child understands where to go in case a parent is not home. If an emergency should arise at school, the parents will be notified. You must make sure that the school has a working phone number at all times.

**Dismissal**

As a proactive safety measure for all the students at Jackson Park, we will no longer allow entry into Jackson Park after 3:00 p.m. Due to unauthorized people entering the building after 3:00 p.m. with the bustle of the
end of the day, we believe this measure is in the best interest of our students' safety. We ask you kindly to wait until the students dismiss with their class outside at 3:35 p.m. where their teacher can record who they left with (pick up) or their mode of transportation (bus, daycare, or walk). If you need to add authorized people to your pick up/emergency call list, you can do so through the parent portal or by contacting the office. We are aware that there are times when an early dismissal is unavoidable, please simply communicate prior to 3:00 p.m. the need to your classroom teacher, or Ms. Coleman.

**Appropriate Dress**

Children need to be groomed and dressed appropriately for school. Safe footwear needs to be worn at all times. No platform shoes or flip flops are allowed. Brief clothing such as halter tops, spaghetti straps, short shorts and mini skirts will not be allowed. Insignia and slogans that are offensive, profane or age-inappropriate are not permitted. Unauthorized head coverings and sunglasses are not to be worn in the building. Any attire that is gang or drug-related is prohibited. Articles of clothing are to be worn the way they were designed to be worn. If your child is dressed inappropriately, either you will be called to bring them different clothing or they will be loaned a more appropriate set of clothes from our nurse.

**Conferences and Progress Reports**

Progress reports are given four times a year, one at fall parent conferences in September and one at spring parent conferences in February. One will be sent home with your child in January and one mailed home at the end of the school year. **Discipline/Expectations**

Effective discipline is essential for the public school to discharge all of its basic responsibilities: instruction, guidance, and socialization. An effective instructional program will occur in a safe environment conducive to learning. The School District of University City has established specific behavioral expectations with regard to student conduct as required by the State of Missouri and School District of University City Board of Education.

We believe that each student is unique and has the potential to make positive contributions to society. In a cooperative effort with parents, staff, and students we commit ourselves to provide an atmosphere that will encourage all students to become well rounded, college bound, career ready, responsible citizens. When behavioral expectations are not met, it is our goal to educate, restore, and provide appropriate interventions for the re-education of students to prevent repeated infractions and violations of District policies and behavioral expectations.

The District Student Expectations Guide lists rules and consequences for misbehavior. This guide is available on the school/District website. If you need a printed a copy, please contact the school office and it will be sent home with your child.

As part of our PBIS process (Positive Behavior Intervention & Support) students are expected to demonstrate our High Five Expectations. We teach students what it means to be Cooperative, Respectful, Peaceful, Kind and Safe. At the beginning of the year, we review all of our behavioral expectations and teach students procedures and routines to ensure a safe and orderly environment that promotes learning. Throughout the year, we provide recognition for students who consistently demonstrate the High Five Expectations.

privacy if disclosed. The district designates the following as Directory Information: Name; Grade level; Parent/legal guardian name; Date and Place of birth; Dates of school attendance; Most-recent previous school attended; Whether Diploma received and date of receipt; Awards; Team and activity membership/participation; Weight and height of athletic participants; Student artwork or course work displayed in the district; Photographs, videos, digital images and recordings of students at public events, unless the district determines, in its sole discretion, that the release of such items would be considered harmful or an invasion of the student’s privacy or if the release of such items could be considered a closed record under federal or state law.

In addition to the Directory Information addressed above, the following information may be disclosed as part of an internal school directory and to organizations, school foundations, or booster clubs that are recognized by the Board and created solely to work with the district, its staff, its students and parents for the purposes of promoting the district or raising funds for district activities. Such information may also be released to governmental entities, including but not limited to law enforcement, the Children’s Division of the Missouri Department of Social Services and federal and state agencies. The district designates the following as Limited Directory Information: Student’s/Parent’s addresses, Student’s/Parent’s telephone numbers and Student’s/Parent’s email addresses.

The District may disclose directory information for any purpose in its discretion without the consent of a parent of a student or an eligible student.

Parents of students and eligible students have the right, however, to refuse to permit the designation of any or all of the above information as directory information. In that case, the information will not be disclosed except with the consent of a parent or student, or as otherwise allowed by FERPA. Any parent or student refusing to have any or all of the designated directory information disclosed must file written notification to this effect with the principal of the school which the student attends. In the event a notification of refusal is not filed, the District assumes that neither a parent of a student or an eligible student objects to the release of the directory information designated.

MILITARY RECRUITER ACCESS/STUDENT RECRUITING INFORMATION: Upon request of military recruiters, the District is required by law to provide access to secondary students’ names, addresses, and telephone listings. The District is also required to provide military recruiters with the same access to secondary school students as is provided generally to post secondary educational institutions or to prospective employers. However, any secondary student or parent of a secondary student may request that the student’s name, address, and telephone listing not be released without prior written consent of the parent. Requests that a student’s name, address, and telephone listing not be released to military recruiters must be submitted, in writing, to the District’s Executive Director of Student Services.

RIGHT TO REQUEST AMENDMENT: Parents or eligible students have the right to request that the District correct any parts of an educational record believed to be inaccurate, misleading or otherwise in violation of your rights. A request should be submitted to the District’s Executive Director of Student Services. Parents or eligible students must identify, in writing, the part of the record sought to be corrected and specify why it is inaccurate/misleading. If the District decides not to amend the record, it will notify the parents or eligible student and provide information on the right to a hearing to present evidence that the record should be changed.

RIGHT TO COMPLAIN TO FERPA OFFICE: Parents or eligible students have the right to file an external complaint regarding the District’s implementation of FERPA, and such complaint may be filed with the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202.

Protection of Pupil Rights Amendment (PPRA)

The federal Protection of Pupil Rights Amendment (“PPRA”) affords parents certain rights regarding a school district’s initiation of certain federally funded surveys, collection and use of information for marketing purposes, and certain physical exams. These include the right to:

Consent before students are required to submit to a survey that concerns one or more of the following protected areas (“protected information survey”) if the survey is funded in whole or in part by a program of the U.S. Department of Education: Political affiliations or beliefs of the student or student’s parent; Mental or psychological problems of the student or student’s family; Sex behavior or attitudes; Illegal, anti-social, self-incriminating, or demeaning behavior; Critical appraisals of others with whom respondents have close family relationships; Legally recognized privileged relationships, such as with lawyers, doctors, or ministers; Religious practices, affiliations, or beliefs of the student or parents; or Income, other than as required by law to determine program eligibility.

Receive notice and an opportunity to opt a student out of: any other protected information survey, regardless of funding; any non-emergency, invasive physical exam or screening required as a condition of attendance, administered by the District or its agent, and not necessary to protect the immediate health and safety of a student, except for hearing, vision, or scoliosis screenings, or any physical exam or screening permitted or required under State law; and activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.

Inspect, upon request and before administration or use: Protected information surveys of students; Instruments used to collect personal information from students for any of the above marketing, sales, or other distribution purposes; and Instructional material used as part of the educational curriculum.

These rights transfer to from the parents to a student who is 18 years old or an emancipated minor under State law. The District has adopted policies regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes. The District will notify parents of these policies at least annually at the start of each school year and after any substantive changes. The District will also directly notify, such as through U.S. Mail or email, parents of students who are scheduled to participate in the specific activities or surveys noted below and will provide an opportunity for the parent to opt his or her child out of participation of the specific activity or survey. The District will make this notification to parents at the beginning of the school year if the District has identified the specific or approximate dates of the activities or surveys at that time. For surveys and activities scheduled after the school year starts, parents will be provided reasonable notification of the planned activities and surveys listed below and be provided an opportunity to opt their child out of such activities and surveys. Parents will also be provided an opportunity to review any pertinent surveys. Following is a list of the specific

State Policy Regarding Reading Assessment, Reading Improvement Plans and Student Retention

Enacted in 2001, Senate Bill 319 clarified reading assessment as defined in Missouri Revised Statute § 167.645. Senate Bill 319 calls for the early assessment of students’ reading skills and requires school districts to intervene with students who are reading below grade level. The law requires:

- Assessment of students in grades 3-6 (with some exceptions) to determine their reading level.
- Individualized “Reading Improvement Plans” for students in grades 4-6 who are substantially below grade level in reading.
- Additional reading instruction for students with Reading Improvement Plans.
- Retention of students in grade 4 if they are reading below the third-grade level. (Several exceptions to this requirement are specified in the law).

English Language Learners (ELL)

If a child’s native or home language is not English, The School District of University City has a procedure in place for identifying enrolling students (Home Language Survey). Qualified staff (certification in English as a Speakers of Other Languages) will assess the learning needs for each ELL in reading, writing, speaking, listening and comprehension. Instruction services for ELL’s include direct English language instruction and appropriate content modifications. The School District of University City will provide notification to parents within 30 days from the start of the school year that their child is being placed in an English language program. If a child enters the program during the school year, this time frame is two weeks. ESOL staff will provide parents with timely notification of student progress in conjunction with the quarterly progress reports.

McKinney-Vento Homeless Education Assistance Act

The McKinney-Vento Homeless Education Assistance Act (McKinney-Vento) is a federal law that protects the educational rights of homeless students to eliminate barriers to the enrollment, retention, and success of homeless students; and to ensure they receive equal access to the same free, appropriate public education as is provided other students.

Who is Homeless?

According to McKinney-Vento, homeless children and youth include individuals who lack a fixed, regular and adequate nighttime residence. This includes the following situations:

- Abandoned in hospitals;
- Living in a nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation;

McKinney-Vento also recognizes unaccompanied youth who are homeless. According to the act, an unaccompanied youth is a youth not in the physical custody of a parent or legal guardian.
Rights Under McKinney-Vento

McKinney-Vento assures every student experiencing homelessness has the right to:
- Immediate enrollment, even if the child or youth is unable to produce records normally required for enrollment, such as previous academic records, medical records, or proof of residency;
- Remain in the school of origin, if in the student’s best interest;
- Receive transportation to/from the school of origin; and
- Receive services comparable to services offered to other students in the District.

Board of Education Policies:

Technology Usage / Board Policy: EHB

(phones, computers, laptops, printers, copiers, cameras, etc.)

The School District of University City’s technology exists for the purpose of maximizing the educational opportunities and achievement of district students. Research shows that students who have access to technology improve achievement. In addition, technology assists with the professional enrichment of the staff and Board and increases engagement of students’ families and other patrons of the district, all of which positively impact student achievement. The district will periodically conduct a technology census to ensure that instructional resources and equipment that support and extend the curriculum are readily available to teachers and students.

The purpose of this policy is to facilitate access to district technology and to create a safe environment in which to use that technology.

Definitions: For the purposes of this policy and related procedures and forms, the following terms are defined:

Technology Resources – Technologies, devices and resources used to access, process, store or communicate information. This definition includes, but is not limited to: computers, modems, printers, scanners, fax machines and transmissions, telephonic equipment, audio-visual equipment, Internet, electronic mail, electronic communications devices and services, multi-media resources, hardware and software.

User – Any person who is permitted by the district to utilize any portion of the district’s technology resources including, but not limited to, students, employees, School Board members and agents of the school district.

User Identification (ID) – Any identifier that would allow a user access to the district’s technology resources or to any program including, but not limited to, e-mail and Internet access.

Password – A unique word, phrase or combination of alphabetic, numeric and non-alphanumeric characters used to authenticate a user ID as belonging to a user.

Authorized Users

The district’s technology resources may be used by authorized students, employees, School Board members and other persons such as consultants, legal counsel and independent contractors. All users must agree to follow the district’s policies and procedures. Unless authorized by the superintendent or designee, all users must have a signed User Agreement on file with the district before they are allowed access to district technology resources.

Use of the district’s technology resources is a privilege, not a right. No potential user will be given an ID, password or other access to district technology if he or she is considered a security risk by the superintendent or designee.

User Privacy

A user does not have a legal expectation of privacy in the user’s electronic communications or other activities involving the district’s technology resources, including e-mail and access to the Internet or network drives. By using the district’s network and technology resources, all users are consenting to having their electronic communications and all other use monitored by the district. A user ID with e-mail access will only be provided to authorized users on condition that the user consents to interception of or access to all communications accessed, sent, received or stored using district technology.

Electronic communications, downloaded material and all data stored on the district’s technology resources, including files deleted from a user’s account, may be intercepted, accessed or searched by district administrators or designees at any time in the regular course of business to protect users and district equipment. Any such search, access or interception will be reasonable in inception and scope and shall comply with all applicable laws.

Technology Administration

The Board directs the superintendent or designee to create procedures governing technology usage and to assign trained personnel to maintain the district’s technology in a manner that will protect the district from liability and will protect confidential student and employee information retained on or accessible through district technology resources.

Administrators of computer resources may suspend access to and/or availability of the district’s technology resources to diagnose and investigate network problems or potential violations of the law or district policies and procedures. All district technology resources are considered district property. The district may maintain or improve technology resources at any time. The district may remove, change or exchange hardware or other technology between buildings, classrooms or users at any time without prior notice. Authorized district personnel may install or remove new programs or information, install new equipment, upgrade any system or enter any system to correct problems at any time.

Content Filtering and Monitoring

The district will monitor the online activities of minors and operate a technology protection measure (“filtering/blocking technology”) on the network and all district technology with Internet access, as required by law. The filtering/blocking technology will be used to protect against access to visual depictions that are obscene or harmful to minors or are child pornography, as required by law. Filtering/Blocking technology are not foolproof, and the district cannot guarantee that users will never be able to access offensive materials using district equipment. However, district employees will monitor student usage and enforce the operation of the filtering/blocking technology and district rules prohibiting access to inappropriate material. Evasion or disabling, or attempting to evade or disable, a filtering/blocking technology, firewall or other safeguard installed by the district through the use of proxies or any other means is prohibited.
The superintendent, designee or the district’s technology administrator may fully or partially disable the district’s filtering/blocking technology to enable
an adult user access for bona fide research or for other lawful purposes. In making decisions to fully or partially disable the district’s filtering/blocking
technology, the administrator shall consider whether the use will serve a legitimate educational purpose or otherwise benefit the district.

**Online Safety, Security and Confidentiality**

In addition to the use of filtering/blocking technology, the district will take measures to prevent access by minors to inappropriate matter on the Internet
and World Wide Web or materials harmful to minors when using district technology including, but not limited to, supervising and monitoring student
technology use and online activities, careful planning when using technology in the curriculum, and instruction on appropriate resources. The district
will also take measures to protect the safety and security of minors when using electronic mail, chat rooms and other forms of electronic
communications. The superintendent, designee and/or the district’s technology administrator will develop procedures to provide users guidance on
which materials and uses are inappropriate, including network etiquette guidelines.

All students will be instructed on safety and security issues. Instruction will address:
1. appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms;
2. the dangers of sharing personal information about themselves or others when using electronic mail, social media, chat rooms or other forms of
direct electronic communications; and
3. cyberbullying awareness and appropriate responses to cyberbullying.

Students are required to follow all district rules when using district technology resources and are prohibited from sharing personal information online
unless authorized by the district. All users will abide by state and federal law and Board policies and procedures when communicating information about
personally identifiable students to prevent unlawful disclosure, dissemination and use of student information or student records.

All users are prohibited from using district technology for “hacking” purposes, including but not limited to gaining unauthorized access to a technology
system or information; connecting to other systems in evasion of the physical limitations of the remote system; copying district files without
authorization; interfering with the ability of others to utilize technology; secure a higher level of privilege without authorization; or introducing computer
viruses, hacking tools, or other disruptive/destructive programs onto or using district technology.

**Closed Forum**

The district’s technology resources are not a public forum for expression of any kind and are to be considered a closed forum to the extent allowed by law.
The district’s webpage will provide information about the school district, but will not be used as an open forum.

All expressive activities involving district technology resources that students, parents/guardians and members of the public might reasonably perceive to
bear the imprimatur of the district and that are designed to impart particular knowledge or skills to student participants and audiences are considered
curricular publications. All curricular publications are subject to reasonable prior restraint, editing and deletion on behalf of the school district for
legitimate pedagogical reasons. All other expressive activities involving the district’s technology are subject to reasonable prior restraint and subject
matter restrictions as allowed by law and Board policies.

**Records Retention**

Trained personnel shall establish a retention schedule for the regular archiving or deletion of data stored on district technology resources that complies
with the Public School District Records Retention Manual as well as the General Records Retention Manual published by the Missouri Secretary of State.

In the case of pending or threatened litigation, the district’s attorney will issue a litigation hold directive to the superintendent or designee.

The litigation hold directive will override any records retention schedule that may have otherwise called for the transfer, disposal or destruction of
relevant documents until the hold has been lifted by the district’s attorney. E-mail and computer accounts of separated employees that have been placed
on a litigation hold will be maintained by the district’s information technology department until the hold is released. No employee who has been so
notified of a litigation hold may alter or delete any electronic record that falls within the scope of the hold. Violation of the hold may subject the
individual to disciplinary actions, up to and including termination of employment, as well as personal liability for civil and/or criminal sanctions by the
courts or law enforcement agencies.

**Violations of Technology Usage Policies and Procedures**

Use of technology resources in a disruptive, manifestly inappropriate or illegal manner impairs the district’s mission, squanders resources and shall not
be tolerated. Therefore, a consistently high level of personal responsibility is expected of all users granted access to the district’s technology resources.

Any violation of district policies or procedures regarding technology usage may result in temporary, long-term or permanent suspension of user
privileges. User privileges may be suspended pending investigation into the use of the district’s technology resources.

Employees may be disciplined or terminated, and students suspended or expelled, for violating the district’s technology policies and procedures. Any
attempted violation of the district’s technology policies or procedures, regardless of the success or failure of the attempt, may result in the same discipline
or suspension of privileges as that of an actual violation.

**Damages**

All damages incurred by the district due to a user’s intentional or negligent misuse of the district’s technology resources, including loss of property and
staff time, will be charged to the user. District administrators have the authority to sign any criminal complaint regarding damage to district technology.

**No Warranty/No Endorsement**

The district makes no warranties of any kind, whether expressed or implied, for the services, products or access it provides.

The district’s technology resources are available on an “as is, as available” basis.

The district is not responsible for loss of data, delays, nondeliveries, misdeliveries or service interruptions. The district does not endorse the content nor
 guarantee the accuracy or quality of information obtained using the district’s technology resources.
It is the policy of the Board of Education to provide a free and appropriate education for students with disabilities, including those who are in need of special education and related services.

**General:** Any individual who knows or has reason to suspect that a student has a disability is expected to promptly contact the school’s principal or guidance counselor.

The district will notify all parents and students of its obligations as required by law.

**Students Eligible for Special Education Services under the IDEA:** The district will operate its own early childhood special education (ECSE) for resident students who are three and four years old. The Special School District of St. Louis County (SSD) will offer special education services and programs for resident students ages five through twenty. All services offered will comply with applicable federal and state laws governing special education services.

**Students Placed in Private Schools by Their Parents:** In general, The School District of University City has no obligation to provide a free, appropriate public education (FAPE) or special education and related services to any student enrolled in a private school by his or her parents. A proportionate amount of IDEA Part B funds will be expended on the group of privately placed students as a whole, as required by law.

Parents of a student previously enrolled in the district who choose to unilaterally place the student in a private school because of a dispute regarding FAPE will not be reimbursed for tuition costs except as required by law.

**Mediation:** The Board of Education authorizes the executive director of student services to legally bind the school district to a mediation agreement affecting any student enrolled in the district’s ECSE program developed in accordance with the IDEA and Missouri law and further authorizes the executive director of student services to contact an attorney for legal advice prior to making any decisions regarding any student enrolled in the district’s ECSE program. Mediations involving other district students receiving special education services and programs will be handled by SSD representatives.

**Resolution:** The Board of Education designates the executive director of student services to represent the school district in resolution meetings and gives the executive director of student services decision-making authority on behalf of the district regarding any student enrolled in the district’s ECSE program. The executive director of student services has the authority to sign and legally bind the district to a settlement agreement reached at the resolution meeting affecting any student enrolled in the district’s ECSE program. Resolution meetings involving other district students receiving special education services and programs will be handled by SSD representatives.

**Special School Children, Subject to Assignment**

A student, once receiving services through SSD, will only be assigned to a district classroom as required by the Individualized Education Program (IEP) of the student.

**Early Childhood Special Education**

The School District of University City shall operate its own early childhood special education program for resident three-year-old and four-year-old children. In so doing, the district assumes the following responsibilities for those children (SSD still assumes these responsibilities regarding the special education of children ages 5 to 21) as required by law:

1. Parental notification and request for permission to screen.
2. Recommendation to the parent of alternative intervention strategies for the child.
3. Screening review process for the purpose of identifying students with disabilities.
4. Development of an IEP.
5. Placement in educational programs and maintenance of least restrictive environment.
6. Notification and maintenance of least restrictive environment.
7. Conducting hearings initiated by the district or parent.
8. Determining whether a student with a disability is in need of a surrogate parent. Within 30 days after the enrollment of a student with a disability or a student who is suspected of having a disability or of the district receiving notice that a student with a disability within its jurisdiction may be in need of a person to act as a surrogate parent, the special education director will determine whether a surrogate parent should be appointed.

   If it is determined that the student needs a surrogate parent, the executive director of student services for the district will document the date of the determination by the district. A request for the appointment of a surrogate parent shall be made on the appropriate DESE form and sent to the Division of Special Education within ten days of the executive director’s determination of need.
9. All other obligations required by law.

**Children Three and Four Years of Age**

When identifying children three and four years of age who qualify for special education but are not yet eligible for kindergarten, the district will use any of the disability categories, including that of Young Child with a Developmental Delay (YCDD). When a child so identified reaches kindergarten age, his or her eligibility will continue to be determined using any of the disability categories, including that of YCDD. A child who is not identified as eligible for special education services prior to reaching kindergarten age will be identified using disability categories excluding that of YCDD.

**Qualified Students with Disabilities Not Eligible for Special Education Services under the IDEA**

The district seeks to identify, evaluate and provide free and appropriate education in the least restrictive environment to all qualified students with disabilities within the definitions of Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA).

**Professional Development for Special Education**
The district and SSD are responsible for ensuring that their respective staff members are properly trained to implement their individual special education responsibilities. District employees will cooperate in identifying needed professional development activities related to special education. The district will forward identified needs in this area, if any, to SSD and will make staff available to attend professional development activities conducted by SSD.

Allocation of Instructional Resources
The district and SSD representatives will meet at least annually to review allocation of instructional resources. This meeting normally occurs in the spring to allow adequate planning time for providing sufficient instructional space and other resources to meet the educational needs of students with disabilities within the district during the following school year. The district will ensure that facilities, services and activities provided to students with disabilities are comparable to those available to students without disabilities.

School Volunteers / Board Policy: IICC
The Board of Education recognizes that community and parent volunteers make valuable contributions to the district’s schools and encourages volunteer participation in district programs. Further, parent and community involvement are essential components of high student achievement. The Board endorses a volunteer program and expects its professional staff to encourage and strengthen community and parent involvement in the schools. The superintendent or designee will create appropriate procedures for attracting, screening and training community and parent volunteers. Volunteering in the district is a privilege, not a right. The district will conduct screening and criminal background checks before any volunteer is placed in a position where he or she will be left alone with a student. The district may decline the services of any volunteer for any legal reason. All information collected on volunteers will be considered confidential to the extent allowed by law and will only be used to protect the students or minimize disruption to the educational environment. Although volunteers will provide support services, they are not substitutes for the professional building staff. Volunteers will work under the direction and supervision of district staff.

Visitors To District Property/Events / Board Policy: KK

District Property
Parents and patrons of the district are welcome to visit district schools and attend district events; however, all visitors during business hours, including Board members, shall sign or check in at the principal’s office prior to proceeding elsewhere in the building and must wear identification tags while on district property. Groups of visitors wishing to visit district schools or facilities must notify the superintendent as far in advance as possible. The district discourages parents or others from using the school as a site for visiting students and may refuse the use of the school for that purpose.

Students dismissed earlier from other schools are not permitted to be on the campus of any other school in the district.

The Board and administration will not tolerate any person whose presence disturbs classes or district activities or hinders the instructional process. Visitors to district property may not possess weapons, including concealed weapons, on district property, on district transportation or at any district function or activity sponsored or sanctioned by the district unless the visitor is an authorized law enforcement official or is otherwise authorized by Board policy.

Visitors to district property must comply with district policy on vehicle idling set out in ECF.

Appropriate Behavior
The School District of University City believes that district events are a vital part of the total educational program and should be used as a means for developing positive social interaction, good sportsmanship and appropriate behavior, in addition to knowledge and skills. Well-organized and well-conducted programs contribute to the morale of the student body and strengthen school-community relations.

To this end, the Board encourages district patrons to exhibit good sportsmanship, citizenship, ethics and integrity at all district events and at all times while on district grounds. The district will work with the Missouri State High School Activities Association (MSHSAA) and other organizations to promote good behavior by the patrons at athletic and other events. The Board will work with parents, alumni associations and local service organizations to keep appropriate behavior a top priority. The superintendent will establish procedures for crowd control at district events consistent with this policy.

Persons Prohibited on or Near District Property or Transportation
The district prohibits all persons who have pled guilty or nolo contendere to or have been convicted of or found guilty of violating the following provisions from being on or within 500 feet of any school building, district property, district activity or any vehicle used to transport students:
1. Any of the provisions in Chapter 566 of the Missouri Revised Statutes.
2. Incest, § 568.020, RSMo.
3. Endangering the welfare of a child in the first degree, § 568.045, RSMo.
4. Use of a child in a sexual performance, § 568.080, RSMo.
5. Promoting a sexual performance by a child, § 568.090, RSMo.
6. Sexual exploitation of a minor, § 573.023, RSMo.
7. Promoting child pornography in the first degree, § 573.025, RSMo.
8. Furnishing pornographic material to minors, § 573.040, RSMo.
9. Any offense committed in another state, a foreign country, or under tribal, federal or military jurisdiction that, if committed in this state, would be a violation listed above

Despite the prohibition in this section, the superintendent may grant permission for a parent, guardian or custodian of a student to be on district property for the limited purpose of attending meetings with district staff or other events. Permission will be granted sparingly, if ever, and only in
situations where the parent, guardian or custodian will be supervised at all times. If the superintendent does not grant permission, the parent, guardian or custodian may seek permission from the Board. The superintendent will inform the principal and other relevant district staff of the scope of the permission granted.

Registered Sex Offenders
Sex offenders required to be listed on the Missouri Highway Patrol’s sex offender registry, or who have pled guilty, pled nolo contendere or been convicted of crimes for which the law currently requires offenders to be listed, regardless of when those crimes were committed, are not allowed on district property or at district activities held on district property except to attend meetings of a public governmental body. The superintendent may also make exceptions for parents, guardians or custodians of students enrolled in the district if the person’s presence is necessary to transport the student, may benefit the student educationally, or in situations where the parent, guardian, or custodian will be supervised at all times. This section may not apply to a student entitled by law to be on school grounds for educational services if the student’s presence is necessary to obtain those services. The exceptions cited in this section do not apply if the person is otherwise prohibited or banned from district property by other sections of this policy.

Disruptive Conduct
If a visitor’s conduct becomes disruptive, threatening or violent, the superintendent, principal or designee may require the visitor to leave. In extreme situations, the superintendent or designee may inform the visitor that he or she is not welcome back on district property or at district events indefinitely or for a specific period of time. During any period of prohibition, the visitor will not be allowed on district property except to attend a meeting of a public governmental body. The superintendent may make exceptions for parents, guardians or custodians of students enrolled in the district if the person’s presence is necessary to transport the student, may benefit the student educationally, or in situations where the parent, guardian or custodian will be supervised at all times. This paragraph does not apply if the person is otherwise prohibited or banned from district property by other sections of this policy.

Enforcement
If a visitor prohibited from district property or events under this policy is on district property, district staff will contact law enforcement and/or escort the person from district grounds and inform the person of the district policy prohibiting his or her presence.

The superintendent, principal or designee may file a report or sign a complaint with law enforcement on behalf of the district. The Board grants the superintendent or designee the authority to consult an attorney for guidance or to seek a court order banning the visitor from district property. A visitor denied access to district property may request to address the Board on the matter in accordance with Board policy.

Virtual Courses / MSBA Policy IGCD
Original Adopted Date: 01/24/2019

Because virtual instruction can be an effective education option for some students, the district may offer virtual courses to students through district staff or by contracting for those services as part of the district-sponsored curriculum. In addition, eligible students may enroll in virtual courses offered through the Missouri Course Access Program (MOCAP). The district will accept all grades and credits earned through district-sponsored virtual instruction and MOCAP.

The district will pay the costs of a virtual course only if the district has first approved the student’s enrollment in the course as described in this policy. Even if a student or his or her parents/guardians pay the costs for a virtual course, the student or parents/guardians should meet with the principal or designee prior to enrollment to ensure that the course is consistent with the student’s academic and personal goals.

The district is not required to provide students access to or pay for courses beyond the equivalent of full-time enrollment. The district will provide supervision for students who take virtual courses in district facilities but will not provide supervision for students taking virtual courses offsite.

Students taking courses virtually are subject to district policies, procedures and rules applicable to students enrolled in traditional courses including, but not limited to, the district’s discipline code and prohibitions on academic dishonesty, discrimination, harassment, bullying and cyberbullying.

Enrollment in Virtual Courses - The superintendent or designee will establish open enrollment periods and registration deadlines for students to enroll in virtual courses offered by the district or through MOCAP. These enrollment periods and registration deadlines will be enforced unless the superintendent or designee determines that an exception is warranted. A student or parent/guardian must notify the student’s principal or designee before the student may enroll in a district-sponsored virtual course or a MOCAP virtual course through the district. The student will be enrolled unless the principal or designee, in consultation with the student’s parents/guardians and relevant staff, such as the school counselor or district special education director, determines that there is good cause to refuse the student enrollment in the course. For enrollment in a MOCAP course, good cause is limited to situations where it is not in the best educational interest of the student to enroll in the course.

Students or parents/guardians who disagree with the principal’s or designee’s determination about a MOCAP course can appeal the decision to the Board of Education and the Department of Elementary and Secondary Education (DESE) as detailed later in this policy. For all other virtual courses, students or parents/guardians may appeal the decision to the superintendent or designee, and the superintendent’s or designee’s decision will be final.

Students with Disabilities - In general, students with disabilities may enroll in district-sponsored virtual courses or MOCAP virtual courses using the same approval process applicable to other students. However, in accordance with federal law, if a student receives special education services, the student’s individualized education program (IEP) team may determine that a virtual course is not appropriate for the student even if the course has otherwise been approved. Any appeal of that decision must be made through the special education process rather than to the superintendent or designee or the Board.

If a student who is receiving accommodations for a disability under Section 504 of the Rehabilitation Act (Section 504) is enrolled in a virtual course, the student’s Section 504 team will determine whether any additional accommodations are necessary for the student.
Attendance and Completion - Students who enroll in district-sponsored virtual courses or MOCAP courses through the district are expected to actively participate in those courses with the goal of completing the course. If a student does not actively participate in a course or is not successful in the course, the district may remove the student from the virtual course and refuse to enroll the student in virtual courses in the future. Students enrolled in virtual courses are expected to complete all course requirements in the time allotted for the course. Students enrolled in a district-sponsored or MOCAP course through the district will be considered in attendance for state aid purposes in accordance with law. A completed virtual course shall be counted as no less than 95 percent attendance for purposes of A+ eligibility.

End-of-Course (EOC) Examinations - Students are required to take state-required EOC examinations administered by the district regardless of whether the course for which the examination is required was taken virtually or in the traditional classroom.

Notice - The district will inform students and parents/guardians in handbooks, registration documents and on the homepage of the district’s website of the option to enroll in virtual courses, including courses offered through MOCAP, as required by law.

MOCAP - In accordance with state law, the district will pay the cost of student enrollment in MOCAP virtual courses as long as:

1. The student meets eligibility requirements;
2. The student has approval for enrollment in accordance with this policy; and
3. Taking the course does not cause the student to exceed full-time enrollment in the district.

In addition to the requirements listed above and in accordance with law, a student is eligible to enroll in a MOCAP course through the district if:

1. The student resides in and is enrolled in the district on a full-time basis;
2. The student has attended a public school or charter school for at least one semester immediately prior to enrolling in a MOCAP course;* and
3. The enrollment is approved by the principal or designee.

*A student will be excused from this requirement if he or she has a documented medical or psychological diagnosis or condition that prevented the student from attending a school in the district during the previous semester.

The district is not obligated to provide students computers, equipment or Internet access to take a MOCAP course unless otherwise required by law to accommodate a student with a disability.

District counselors or certificated staff will develop an individual career and academic plan (ICAP) for district students enrolled in three or more virtual courses. If a student already has an ICAP, the plan will be reviewed and modified as necessary. In accordance with law, school counselors cannot be required to make the final decision regarding a student's enrollment in a MOCAP course.

Appeal - If the principal or designee determines that it is not in a student's best educational interest to take a virtual course, the student and the parents/guardians will be notified in writing, provided an explanation for the decision and informed that the student or parents/guardians may appeal the decision to the Board. However, if the student is receiving special education services, the student's IEP team will make the final decision regarding student enrollment in a virtual course in accordance with federal law, and the decision must be appealed through the special education process rather than through the Board.

If the student or parent/guardian appeals to the Board, the principal or designee will provide the Board written reasons for denying the student's enrollment, and the student or parent/guardian will provide written reasons the student should be allowed to take the course. Both documents will be retained by the Board and will be incorporated into the minutes. In addition, the student, parents/guardians and the principal or designee will be allowed to present their arguments at a Board meeting.

The appeal to the Board shall be held in closed session. The Board will consider the information presented and release a written decision within 30 calendar days of the meeting. The student or parents/guardians may appeal the decision to DESE. The appeal to DESE must be filed within seven days of the Board’s final decision.

Payment - The district will pay a MOCAP course provider a monthly pro rata amount based on a student’s completion of assignments and assessments, subject to the cost limitations in state law. The district will stop making monthly payments if a student discontinues enrollment. The superintendent or designee is authorized to negotiate lower course rates with MOCAP course providers when possible.

Monitoring and Reporting - The district will monitor the progress and success of students enrolled in MOCAP courses. The district may remove a student from a course if it does not meet the educational needs of the student. The district may terminate access to a course or refuse to allow students to enroll in a MOCAP course if the district determines that the course is not meeting the educational needs of the students enrolled in the course.

All concerns regarding the quality or delivery of a MOCAP course will be reported to DESE. The district may consider concerns regarding the quality of a course when making approval decisions for other students. In addition, the district will consider recommendations made by DESE regarding continued or future enrollment in MOCAP courses.

Transfers - The district will accept transfer credits students earn by successfully passing approved MOCAP courses if the course provider gives the district an official record of the completed course and the grade earned. Students who transfer to the district while enrolled in MOCAP courses will be allowed to continue enrollment in those courses even if the course provider is not one used by the district.

Virtual Courses: Best Educational Interest Determination

IGCD-AP1.1A - Original Issued Date: 12/13/2018

A student or the student’s parent/guardian must notify the student’s principal or designee before the student may enroll in a district-sponsored virtual course or a Missouri Course Access Program (MOCAP) virtual course through the district.

The principal or designee will educate the student and the student’s parents/guardians about how virtual instruction is provided and the key differences
between virtual and in-person instruction. The principal or designee will discuss the virtual course options available to the student, determine which course or courses interest the student and how the course or courses will assist the student in meeting his or her academic and personal goals. The principal or designee will also inform the student and the student’s parents/guardians of whether the course is available in a traditional setting, whether the student must complete any prerequisites prior to taking a particular course and whether the prerequisite courses are offered by the district virtually or traditionally.

The principal or designee, in consultation with the student's parents/guardians and other relevant staff, such as the school counselor or the district’s special education director, will determine whether there is good cause to refuse the student enrollment in the course. Students or parents/guardians who disagree with the principal’s or designee’s determination about a MOCAP course can appeal the decision to the Board of Education and the Department of Elementary and Secondary Education (DESE). For all other virtual courses, students or parents/guardians may appeal the decision to the superintendent or designee, and the superintendent’s or designee’s decision will be final. In accordance with federal law, if a student receives special education services, the student’s individualized education program (IEP) team may determine that a virtual course is not appropriate for the student even if the course has otherwise been approved by the district.

If district staff determine that it is not in the best educational interest of a student to take a virtual course, that decision will be documented in writing and provided to the student and the parents/guardians.

**Best Educational Interest Considerations**
District staff should minimally consider the following when deciding whether a virtual course is in the best educational interest of a student but may consider other factors not listed.

**District Course Availability**
1. If the course is offered onsite by the district, are there extenuating circumstances that make it difficult or impossible for the student to take the onsite course offered by the district?
2. If the course is offered onsite by the district and the student is able to take that course, what are the reasons the student wants to take the virtual course?

**Virtual Course Characteristics**
1. Does the course meet or exceed district curriculum standards and graduation requirements?
2. Does the course align with the student’s career goals and the student’s individual career and academic plan (ICAP)?
3. If the course is for remediation, will it personalize instruction to the student's specific needs?
4. Is the district aware of any complaints or concerns regarding the quality of the course, and have those complaints or concerns been resolved?
5. Has the district had difficulty working with the course instructor or provider to ensure a student with disabilities receives the required accommodations or modifications?

**Student Skills Necessary for Success in Virtual Courses**
1. Has the student demonstrated time-management skills that indicate that the student is capable of submitting assignments and completing course requirements without reminders?
2. Has the student demonstrated persistence in overcoming obstacles and a willingness to seek assistance when needed?
3. Has the student demonstrated verbal or written communication skills that would allow the student to succeed in an environment where the instructor may not have sufficient nonverbal cues to indicate the student’s level of understanding?
4. Does the student have the necessary computer or technical skills to succeed in a virtual course?

**Other Relevant Factors**
1. Does the student have adequate access to computers, Internet and other necessary technology resources to participate in a virtual course and complete assignments?
2. If the student has previously attempted a virtual course and struggled with or failed the class, have the issues that caused the student to struggle or fail been identified and addressed?
